

Save a Can/ Buy a Fish

Save a Can/Buy a Fish - This recycling program promotes recycling while helping to increase the fish habitat at Paradise Lake. Aluminum can containers are located in several areas throughout the lake including the parking lot and picnic area. For larger donations, bags of cans can be dropped off at the Lake Patrol residence at the Lake located at 6853 Lucretia Road or the District office. All proceeds from this program go strictly towards buying trout for Paradise Lake.

Paradise Lake is one of two reservoirs which stores water for our community. It is a source of public water supply therefore it is strictly regulated. It covers an area of 244

acres and is surrounded by beautiful wooded land and has a shoreline of 7.5 miles. It's

function is to store raw water for our community of Paradise. It holds approximately 11,500 acre feet of water. It is our only reservoir that allows fishing and recreation. Magalia Reservoir is located on Little Butte Creek downstream from Paradise Lake and does not allow fishing or recreation. Paradise Dam separates the two reservoirs.

For the purpose of permitting the public to enjoy recreational facilities of the Paradise Irrigation District, and in order to extend the privilege to all upon a fair and equitable basis, and at the same time to insure that the use of the recreational facilities does not detract from the primary objective of the District, that of supplying safe, pure and wholesome water to the District water consumers, and to further insure the safety of District property, recreation privileges will be in accordance with the following regulations:

Paradise Irrigation District
